मंगलमय आशीर्वाद

“नव वर्ष की शुभकामनाएं, परोपकारमय जीवन बनाएँ”

“अह्य वही उदार है परोपकार जो करे,
वही मनुष्य है कि जो मनुष्य के लिए मरे ।
रहो न भूल के कभी मदांघ तुच्छ वित्त में,
सनाथ जान आपको करो न तर्क वित्त में ।
अनाथ कौन है यहाँ त्रिलोकनाथ साथ हैं,
दयालुदीन-बन्धु के बड़े विशाल हाथ हैं ।
अतीव भाग्य-हीन है अधीर भाव जो भरे,
वही मनुष्य है कि जो मनुष्य के लिये मरे” ॥

प्रिय बच्चों !

महर्षि वेदव्यास ने जीवन पर्यन्त सरस्वती का मंत्रन सेवा कर पाया है कि तीनों लोकों में परोपकार से बड़ा कोई पुण्य नहीं है । परमपिता परमात्मा के पुत्र सदा दूसरों के हित में लगे रहते हैं, वे दूसरों के दुःख से दुखी और दयालु होते हैं । देखो! विद्याता ने वन्दन के वृक्ष को फल-पुष्पों से रहित बनाया है, फिर भी वे अपने शरीर से दूसरों के संताप मिटाते हैं ।

प्रिय बच्चों ! मनुष्य का शरीर धारण करके जो लोग दूसरों को दुःख पहुँचाते हैं, उनको जन्म और मृत्यु के महान संकट सहने पड़ते हैं । मनुष्य मोह-वश स्वार्थ-पररायण होकर अनेक पाप करता है । इसी से उनका परलोक नष्ट हुआ करता है ।

नीतियाँ कहती हैं - “परोपकार शून्यस्य थिडः मनुष्यस्य जीवितम्”

परोपकार न करने वाले मनुष्यों को धिक्कार है । परोपकार में लगे हुए सज्जनों की प्रवृत्ति पीड़ा के समय भी कल्याणमयी होती है । वे वृक्ष धन्य हैं, जिनके पुष्प, फल, छाया, जड़, बल्कल और लकड़ी से लाभान्वित होकर याचक गण विमुख नहीं लौटते । जाहिर है, उपकार करने का साहसी स्वभाव होने के कारण गुणीज अपनी हानि की भी विन्ता नहीं करते हैं। दीपक की लौ अपना अंग जलाकर भी प्रकाश उपन्न करती है ।

“परोपकाराय फलन्ति वृक्षाः,
परोपकाराय वहन्ति नद्यः ।
परोपकाराय दुहन्ति गावः,
परोपकाराय सतां विभ्रतिः” ॥

सृष्टि के मनुष्य के हितार्थ, उपकारार्थ वृक्ष फल देते हैं, नदियाँ बहती हैं, गायें दूध देती हैं तथा सज्जन पुरुष अपना सम्पूर्ण जीवन निरन्तर कर देते हैं । कौन नहीं जानता ! भारत वसुंधरा पर वृक्ष, नदियाँ, गायें और सज्जन पुरुष भी परोपकार के लिए ही अवतरित होते हैं । हमें भी चाहिए! हम भी अपना सर्वस्व समर्पण कर भाई-चारे के संबंधों को बढ़ायें और भारत के सच्चे संपूत होने का परिचय दें ।
इन्हीं शुभ भावों के साथ “दा विज्ञान ग्लोबल स्कूल फाउन्डेशन ट्रस्ट” एवं प्यारे बच्चों को बहुत-बहुत अशीर्वाद.....!

18 REASONS TO CHOOSE TWGS

Founder & Chairman

Dear Parents

There is no greater medium than education in the whole world which enhances one's personality and makes one stand tall against the high standards set by the society. Along with education, respect and understanding of traditional values and ethics are equally important. Without this education will be like giving weapons in the hands of a soldier without proper training. To understand this better we have live examples where highly educated persons without ethical values choose a path of terrorism whereas maybe a less educated person with strong values happily sacrifices his life for the nation.

The key goal of this institute is to inculcate multi-faceted values to your talented kids along with the highest level of proper modern education to set the correct foundation for lifetime. This is what we call Holistic Development in real sense. Holistic development might just appear as a word, but it carries the entire beauty of the world within itself. Therefore, we aim to nurture the sharp minds with multiple activities carried out in the school involving wide spread subjects & personality aspects.

At TWGS we expect the students to learn respect for the all and love for the youths, keep themselves safe while creating secure environment for others, keep progressing towards their aim without making others feel defeated thus strengthen the foundation of our Indian religion and values while respecting the goodness of others religion and values. One should have one's viewpoint but should be respectful towards other's as well and at the same time should have prudence to select the right and wrong path when faced with these options in future.

I experience extreme gratification realizing that in just 9 years a sapling sowed by parents and teachers is growing into a big tree providing shade and fruits with strong roots. I assure you that with the blessings of 108 Shri Gupti Sagar Ji Maharaj, the devoted and caring efforts of teachers, the unwavering discipline of the Principal and the devoted efforts of students to achieve meritorious education will successfully develop your child to be a highly educated, balanced and responsible citizen.

With best wishes

Shri U. C. Jain (Founder & Chairman)

Shri U. C. Jain (Founder & Chairman)

Message From Founder Trustees

I personally feel highly delighted and elated to see that the sapling which was planted back in 2014 is slowly and steadily turning into a big tree. My heartfelt blessings are with all those students who appeared in the school's first twelfth board examinations and made us proud by performing exceedingly well.

I am happy to observe that our students are thoughtful, compassionate and curious learners, each student in his unique way has contributed to what makes TWGS an amazing place to be in. I thank you for entrusting your children with us, we are fortunate to be part of their journey.

I am highly confident and hopeful that with the leadership of the Principal the school will further flourish and will keep on adding new feathers to its hat. Our staff is second to none in their commitment to our students. Their passion for bringing the best out of our students is inspiring.

Together, we build a community for our students that believes in their boundless potential.

Mrs. Neeta Jain
Graduate from Delhi University

I draw a lot of energy from the young inquisitive minds at the school campus engrossed in various activities at the learning environment that we have been able to create in eight years of foundation of TWGS. It seems we just started yesterday and keeps us charged and motivated to provide the best infrastructure and adopt best practices for TWGS to be a Center of Excellence in Education and Young Learners' Development. The pedagogy adopted results in overall development of the child with strong focus on academics, value system, physical and mental well-being. We are conducting career counselling workshops through in-house and external experts for students as well as their parents to make them aware of various career and growth areas available today other than the traditional conventional ones. It's a great pleasure to see our students winning numerous accolades in various domestic & international competitions. We are committed for our students shining bright in the world with strong foundation and intellect!

Mr. Nikhil Jain
B.E. (Electrical), Delhi College of Engineering (DCE)
M.B.A., Management Development Institute (MDI)

Our philosophy of education has always been meeting the needs of individual child. We try to understand and work with each child, and we firmly believe that it is our responsibility to enable the child in our care to develop holistically. We believe children acquire skills and knowledge easily if we can make surrounding stimulating and purposeful. At TWGS we have focused on an education system where children learn by experiencing things and not just through book learning. By creating such surroundings, the child is self-motivated to learn more by acquiring knowledge from the books. I take this opportunity to thank the parents who have unconditionally trusted us and whole heartedly supported us, we reassure them that we shall keep working providing safe and welcoming atmosphere for kids to relish learning experience.

Mr. Rishabh Jain
B.E. (Textiles), University of Bolton, U.K.
M.B.A., Kogod School of Business, U.S.A.

Message From Founder Trustees

"A difference between ordinary and extra ordinary is that little extra". This is what we try to achieve in TWGS. It's always such a pleasure to see the students' achievements. Our goal is to endure hours of professional development so that we are well versed in all the current educational pedagogy. We develop assessments for students so that we can track their progress. When all this doesn't work, we have intentional interventions aimed at getting students back on track. While being part of this process, one thing I have realised is that the teaching happens all by itself. One just has to keep nudging them in the right direction. "Aim High, But Start Low, Celebrate and Keep Going".

Mrs. Reema Jain

B.Arch., School of Planning & Architecture
Masters in Renewable Energy, TERI University
Visiting faculty, School of Planning & Architecture (S.P.A.)

This year was very challenging as students were coming after 2 years to the school because of the pandemic. The schools focus on child centered pedagogy which emphasizes on building thinking skills and generate problem-solving confidence amongst the children has helped them to successfully overcome the learning gap and effectively engage in their lessons. Schools' continuous belief on creating a conducive environment to emphasize on "how to think" rather than "What to think" has provided us with various leaders. This has been eminent from the fact that how the TWGS students have participated in various competitions across various cities and came out with flying colours. My focus would always be on creating a learning environment which would add fun to learning as they say "Play give children a chance to practice what they are learning".

Mrs. Sonal Jain (Director)

B.A.(Eco Hons), Jesus & Mary College, DU

TO US EDUCATION IS AN EVER - LASTING QUEST OF KNOWLEDGE AND WISDOM

- Srinivasa Ramanujan

Message from the Principal

Mr. Sanjay Dewangan

FOR MORE
INFORMATION

10

Dear Parents

Greetings!!

'**THE WISDOM GLOBAL SCHOOL**' retains its name amongst the '**CHANGE MAKERS**' for leading the educators, creating the educators, having '**MERITORIOUS BOARD RESULTS**' and inculcating the belief in general that '**EVERY CHILD IS UNIQUE, FOR HAVING ITS LATENT CREDENTIALS**', and here at **TWGS** we make the child explore, discover and hone its same latent potential, that takes sometimes whole life to get exposed, if it doesn't get the ad-hoc ambience:

Flowers bloom perfectly, if they have perfect environment, proper care, nourishment and a strengthened root system. Children are alike flowers clutching its own identical fragrance that is prone to fade in the air, if it's not taken care. Thus the school for such flowers is a garden which flourishes, prospers and nurtures every bud to bloom out its petals to emanate its smiling fragrance far and wide. In the same '**FLORAL PSYCHOLOGY OF CHILD EDUCATION AND THE HOLISTIC DEVELOPMENT**', educators at **TWGS** play the role of gardener while nurturing the children as variety of flowers having assorted identical fragrances that make them unique.

TWGS boasts of its high-tech modern infrastructure and highly qualified team of educators that act like catalyst in the process of blooming of a child and its innate talent. Apart from the core academics, we believe in bringing out one or the other latent talent of the child (e.g. writing and editing the '**SCHOOL MAGAZINE**', '**THEATER WORKSHOPS**' to engrave theatrical skills, exploring the soothing tunes of music by getting the self engrossment in the lyrical world of '**VOCAL AND INSTRUMENTAL MUSIC**', having the feel of being down to mother earth and playing with the soil in the '**POTTERY LAB**', living the characters of the fables and novels along with the agile reading in the '**LIBRARY**', learning and feeling the texture of their own woven piece of cloths in '**TEXTILE LAB**', maintaining the sportive spree by indulging every individual in one or the other sports in order to balance the physical and mental wellness under the supervision of Experienced '**SPORTS COACHES**' and much more of having debate, group discussion, stage presentations and so on...) that might become its full-fledged career option in the future ahead.

Having the constant upgradation in the '**EDUCATION SECTOR**' is the need of the hour to cope up with the fast rolling time. **TWGS** believes in the philosophy of '**ADOPT-ADAPT-ADEPT**' whether it be the multi-disciplinary project based learning, inclusive experiential learning, individual project based learning report writing or experimental learning. Our four houses 'Saty', 'Ahinsa', 'Namrata' and 'Ekta' act like a catalyst that ignite the students' competitive spree and prepare them for the arena of their professional world, by inculcating the sacraments of Indian culture and the real ethical meaning of their own terms. Our Team of educators with full determination is always at the call of students' requirement irrespective of the time and space limitations.

We at **TWGS** make the students come out of their comfort zone and take the responsibilities of their own personality development by taking part in assorted academic and co-curricular activities well planned and mentioned in our '**ACADEMIC CALENDAR**'. We are committed to touch the sky limit of every possible option for the upgradation of our education system and for our children to make them fearless and all time prepared for their career adventures.

CORONA time has undoubtedly compelled all of us to redesign our pedagogy by altering our modes and means of teaching. Keeping the very need in our consideration, we have boosted our digital platform in order to enhance the advantages of technology. Proceeding the idea of '**DIGITALIZATION OF EDUCATION**' we have introduced the website <https://www.quickmath.in/> to give a good hand to our students in their learning process. The website is devotionally educational and caters '**SUBJECT-WISE and CLASS-WISE**' Explanatory Videos, interactive worksheets for more practice and perfection of our students. Even though the attraction for this digital platform is the 'Wonders of Vedic Maths' and '**FULL-FLEDGED COURSE OF SPOKEN ENGLISH**' and '**COMPETITIVE ENGLISH**' that again make us out of crowd.

We believe and have observed that every initiative of ours that imbibes the vibes of students' all round development, has received the acclaims and support of our parental community. The very trust and support of all of yours as the parents, the well wishers and the supporters, is the source of inspiration and cause for us to work for 24x7 hours, so that we can feel the voluble wonders in the behavior and performances (be it '**ACADEMIC, SPORTS OR CO-CURRICULAR**') of our children.

I convey my best wishes for my all the students for the session 2023-24 and blessings for the 12th students for their Board exams for the session 2022-23 and later on for their professional career ahead. With the optimistic note that we would be able to keep our commitment to introduce more laurels and feathers in the cap of '**THE WISDOM GLOBAL SCHOOL**' with as usual cooperation of our parental community. I invoke you all to visit and discover our endeavors that are more voluble in our Children and their day to day academic and co-curricular adventures.

With Thanks and Regards

The Logo

The logo of any organization has its own evolving story, it has its own symbolic meaning that heightens it to the universality of the mission and vision of the particular organization, inseminating the same to the general. Hence it becomes mandate to feel the picturesque significance of our logo.

Logo of 'The Wisdom Global School' has been encircled in two 'BLUE RINGS' in the feet of 'Namo Jinaanam' showing its spiritual motto (which means I bow down to all Divine Entities in all Living & Non-Living beings and I request to all Living/Non-Living beings to give me an opportunity to serve unconditionally and destroy all my Weaknesses and Defects in Karmas) accepted by every wisdomite. Blue color emits the vibes of limitless sky, invoking the wisdomites to recognise the limitless opportunities and convert them into the steps of their ladder of success. The name of School is also written in Blue Colour highlighting its philosophy of limitlessness, whenever it's the matter of 'ADOPT-ADAPT and ADEPT'.

Further ahead inside the Blue circles two arrows are in a constant motion in a clockwise manner representing our 'Karma Chakra' that indicates our 'Recycling Actions', suggesting us towards our sustainable and holistic approach towards this beautiful world. These green arrows act like TWGS' mission which is "Holistic Development" and their green color asimimilates our mission with our invoking to every wisdomite for its acceptance of sustainable approach towards the environment.

The artwork in center represents two students enjoying and learning in "The Wisdom Global School", forming a 'W' showcasing their hands alfresco representing the assimilation of the school's name and acceptance of the motto of the School; meanwhile golden color of this artwork represents the purity, education, tradition, enlightenment, achievement and triumph.

House System

REPORT ON SATY HOUSE

The students of the Blue House, referred to as 'SATY' are known for being truthful in their thought, speech and action. Considering the motto of 'SATY HOUSE' that signifies truthfulness and morality that every wisdomite is supposed to respect. Thus this is the only way to inseminate the peace in society. A person who sticks to his moral values is said to bear a good character and only a good and a powerful character can change the nation. The students of 'SATY HOUSE' are triumphant in many of the co-curricular activities, be it quizzing or sports. Their greatest assets are their confidence, determination and never give up truthful attitude which make them courageous to deal with any flaw by retaining the tag line of 'SATY HOUSE' that is 'TRUTH IS INVINCIBLE'. Students of the 'SATY HOUSE' are always inspired by the motto of 'SATY' and are committed to their goals and prove to be all-rounder and achievers time to time.

REPORT ON NAMRATA HOUSE

The students of the 'GREEN HOUSE', referred to as 'NAMRATA' are supposed to wear 'NAMRATA' (Politeness) in their day to day affairs irrespective of the person's age, social and professional rank, as Politeness cherishes love in hearts for one and other and leads 'Love' to possess the power to win the world. The Students of the 'NAMRATA HOUSE' are supposed to be down to Earth, sociable and responsible. The green colour of 'NAMRATA HOUSE' depicts 'EVERGREEN ATTITUDE' means to be constant and inspired in all the oddities of life and keep on going like nature.

REPORT ON AHINSA HOUSE

Ahinsa is a Sanskrit term that translates roughly into non-injury to living beings or dynamic harmlessness. Ahinsa is another name for truth or love. Ahinsa is soul-force, Hate melts in the presence of love and dissolves in the presence of Ahinsa. There is no power greater than Ahinsa that can develop a will power to make you fearless. He, who practices Ahinsa with real faith, can move the whole world, can tame wild animals and can win the hearts of all his enemies. He can do and undo things. The power of Ahinsa is infinitely more wonderful and subtler than electricity or magnetism.

The law of Ahinsa is as much exact and precise as the law of gravitation. You must know the correct way to apply it intelligently and with scientific accuracy. If you are able to apply it with precision, you can work wonders. You can command the elements and Nature as well.

REPORT ON EKTA HOUSE

People in unity look forward to work towards a common goal instead of satisfying their own selfish motives. The students of Ekta house have the following characteristics in them: Help and Support-We help each other and provide moral as well as financial support when it is needed. On the other hand, living in isolation will make anyone feel insecure and introvert. Good Guidance-It is a proven fact that when we stay united then we may seek guidance from others them for both personal and professional matters. . Source of Motivation-When we work together, we are motivated and encouraged to work harder. Also, we push each other to accomplish the goals and this works as a great motivational factor.

Wing wise distinction

Pre-Primary :

Mother is the best teacher at home, she is the first influence providing her child with love and security & a teacher is a mother at school. Everyone knows being a teacher is not an easy task. You need to have high patience level to survive each preschool teaching day. So, TWGS have apparent concept of MOTHER TEACHER, who helps students to acquire knowledge, competence or virtue supported by an assistant teacher and a governess in all the classes of Pre-Primary wing from Pre-Nursery to Class II.

The students are made to learn with hands on activities, props, videos, learning toys, animations etc.

Primary :

The primary wing is an innovative platform for child centered education. We illuminate the contemplation of young learners with right learnedness. We emphasize on experiential learning, activity based curriculum to incorporate the special needs and interest of children. Facilitators stimulate or explore their capacity and unlatch the boundaries. Our education system nurture the child physically, mentally spiritually and emotionally.

Middle wing :

The Middle School Programme covers Classes VI to VIII. The entire education process at the Middle Wing of TWGS is designed in such an innovative way that the priceless treasures of creativity, knowledge and curiosity unearths from the heart of the young children. Our multi-dimensional curriculum stimulates each child to emerge from the cocoon and blossom into a confident individual with a vibrant mind ever yearning to learn and raring to march ahead.

We constantly upgrade our methodologies by adopting new tools and frameworks inside the classrooms that disseminate knowledge that is engaging and interactive. The evaluation here is not to test knowledge but to broaden the horizons of knowledge. We follow a Comprehensive and Continuous Assessment plan to chart the academic growth of our learners.

Senior Wing :

The senior wing balances rigorous academics with a multitude of activities, programs and events to stimulate the young dynamism and fiery spirit of TWGS students. The aim is to explore students' learning experiences in school by identifying what are the core elements of learning.

Secondary school education is important for every student, not only because it takes you up the ladder of education, but it is also an accomplishment that comes with freedom of its own. In secondary school, the number of subjects is lesser and you can choose your preferred subjects and study in detail on them.

CLASSROOMS

Pre - Primary

Our Pre Primary Classes of TWGS are age appropriate. Our classes have different corners for learning including story corners, focus walls, Achievements walls, and word walls. We follow proper routine in classroom such as meals or group time, are necessary and helpful to build a consistent classroom community. Our classes include child friendly furniture and flooring. We follow thematic approach and board decoration according to the monthly theme which helps in better learning. Our classes have smart boards that boosts student engagement, accommodate different learning style it provides an enriched learning experience to students by projecting visual elements.

CLASSROOMS

Primary to Senior

Learning at TWGS, begins with ensuring that the classrooms are ideal places which provide room to students to grow, interact, learn and achieve. We at TWGS, ensure that classrooms contribute to a positive environment which can result in effective teaching and learning. All the classrooms of TWGS are well-equipped with modern day technology which warrants students learn in the best possible way. The classrooms are furnished with Touch Displayed Smart Boards with high quality sound systems to keep learning interactive and intuitive. The smartboards have all the latest software which provide ease to the facilitators so that no barriers are faced during teaching. All the classrooms are under surveillance with view and sound cameras which have 24x7 recording features. The main aim of surveillance is to safeguard our students. Each classroom has furniture as per the grade levels to ensure comfort at its best as a child spends most of the day in school. The furniture is also chosen in such a manner that any kind of injuries can be prevented. The classrooms possess proper table, stands and chairs for facilitators to have an ease of access. Each classroom has a greenboard on which the students can exhibit their creativity in sync with the theme of the month.

Academics at TWGS

Curriculum

Pre-primary

The school's Pre-Primary Curriculum is designed to provide a nurturing, creative and stimulating environment for Physical, Intellectual, Language, Social and Emotional development of the child. It prepares children for the primary level by focusing on the holistic development of the child. It lays the foundation for the development of reading, writing, number work and learning through discovery. We encourage our learners to learn and apply the principles of learning experiences to real life situations as well. Our text books, work books and worksheets are carefully selected to give an impetus to learning by doing. We also ensure parent orientation as an advanced form of parent-teacher meeting.

Our aim

- Fun based environment.
- Promote creativities and innovations.
- Communication and interactive skills.
- Personal and social skills.
- Problem solving skills.
- Thinking abilities.

Primary

A curriculum is important in education because it provides a framework for teaching and learning. It refers to a defined and prescribed course of studies, which the students must fulfill in order to pass a certain level of education. The curriculum of The Wisdom Global School is designed by the teachers in such a way that they get complete conceptual knowledge. For this, the teachers have already bifurcated the syllabus so that the entire course is covered well. Some of the topics are self-designed as an extended syllabus so that students get to know about their history and famous places and great personalities. The core subjects are English, Hindi, Mathematics, Science, S.St, and Computer. Activity classes are Spoken English, Sports, Dance, Music, Tabla, Pottery, Taekwondo, Swimming, Arts & Crafts, Textile, Library, and Printing.

Academics at TWGS

Curriculum

Middle

During the middle years of school, every student studies a set of mandated subjects. These subjects are intended to build students' understanding of themselves, society and the wider world, and to provide exposure to important bodies of human knowledge. The subjects of middle wing curriculum provide essential foundation for learning in the later years of school and for life more generally. Students in middle wing study Hindi, Mathematics, Science, and Social Studies each year, together with two Languages other than Hindi i.e. English and Sanskrit, Computer Technology, Creative Arts and Crafts, Sports, and Physical education, Personal Development such as Spoken English, Music-(Instrumental and Vocal) Dance, Painting, and Textile, and so on. The Wisdom Global School also provides many clubs to enhance their students' personality traits, such as the Model United Nations (MUN) club, Dance club, Cricket club, Drama club, and Day Boarding facility for academic and personality development.

Senior

The Senior Wing comprises classes IX to XII. In order to promote Competency-Based Education (CBE), the school has adopted various methodologies at Secondary and Senior Secondary to adopt NCERT learning outcome. The National Education Policy 2020 has affirmed that competency-based learning is integral to develop the creative and critical thinking capacities of students to meet the challenges of the 21st century proactively. It emphasizes on equipping students with problem-solving skills, analytical skills, and conceptual clarity. The curriculum at Senior Secondary Level is based on the aptitude and academic performance of the child in class X. The child has an option to choose the subjects per his interest and abilities. Enrichment activities are planned as per CBSE guidelines throughout the year to add value to the process and develop comprehensive personalities. The faculty acts as a guide and facilitator for all team-based projects and group discussions, making students independent logical thinkers.

Academics at TWGS

Examination

“Exams have an important role in the process of learning and in the whole educational institution.”

According to the TWGS Norms, the exam process is beneficial in regards to assessing where faculties and particular classes need more focus or resources. TWGS ensures that they are offering students the best and exams are a great technique to monitor the progress and effectiveness of that particular class. TWGS believes in “happier class has higher grades” so a pattern of similar average results may indicate the motivation that a particular class may have or not. Finally we can change the world by educating. The roots of education are bitter but fruit is sweeter. A tree is nothing without its roots similarly, education without exams. Every child has a different learning style and pace. Each child is unique, not only capable of learning but also capable of succeeding. The understanding capacity of students can be judged with the help of their ‘Conceptual Knowledge’.

Therefore, at TWGS, there is a clearcut distinction between Measurement, Evaluation and Assessment which normally are used or treated interchangeably. Assessment is where the heart of the school lies and where the school has its core competency. We follow a systematic method of evaluation of our students. Projects & Activity based Worksheets; Internal Assessments are some methods cultivated to assess the student’s progress in the class. The emphasis here is to inculcate in each student an inquiring mind and not merely the acquisition of knowledge. Pre-Mid Term, Mid Term, Post-Mid Term and Final Term examinations are conducted for students of Class IX-XII based on CBSE pattern. Internal assessments are carried out throughout the term. It comprises of assessing class activities, periodic written assignments and notebooks – class work and home work. The marking/grading is based on the mandate shared by CBSE. Various projects are also assigned to the students to enhance their creativity and innovative skills.

“Before anything else, preparation is the key of success.”

Strengths and weaknesses can also be assessed through exams. The teachers will be able to understand where more attention in class may be needed while teaching the particular subject. A pattern of weaknesses may be apparent when marking the works. TWGS uses mock tests as a great technique for revisions before the formal examinations. This will give students and teachers the opportunity to understand where their weaknesses may be, in time for the preparation of the formal exam. This will give them all the chances to ensure that they are able to achieve the best of their abilities in class, thus helping them in the future.

Academics at TWGS

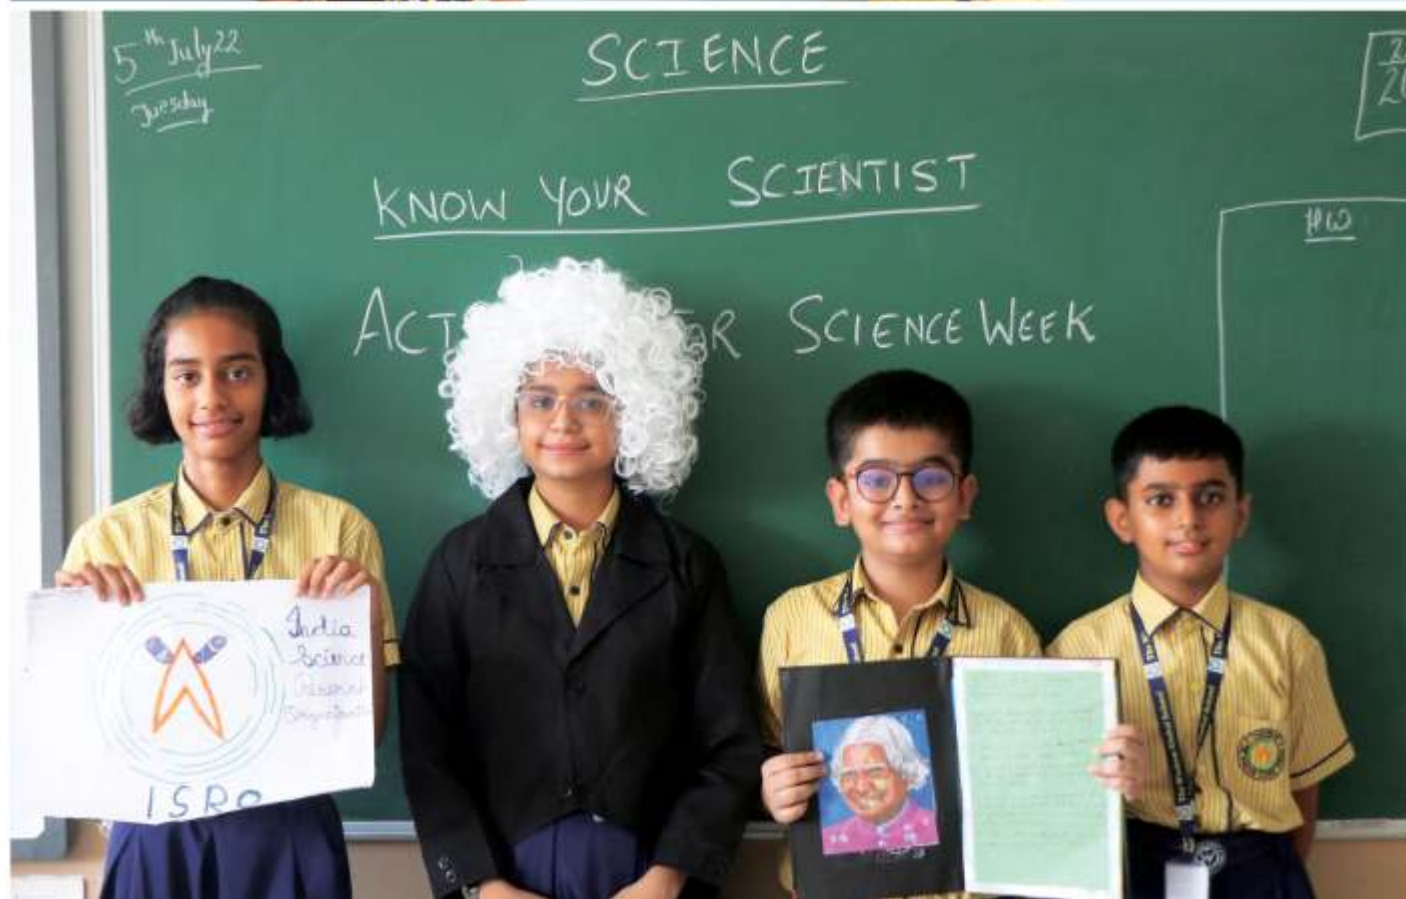

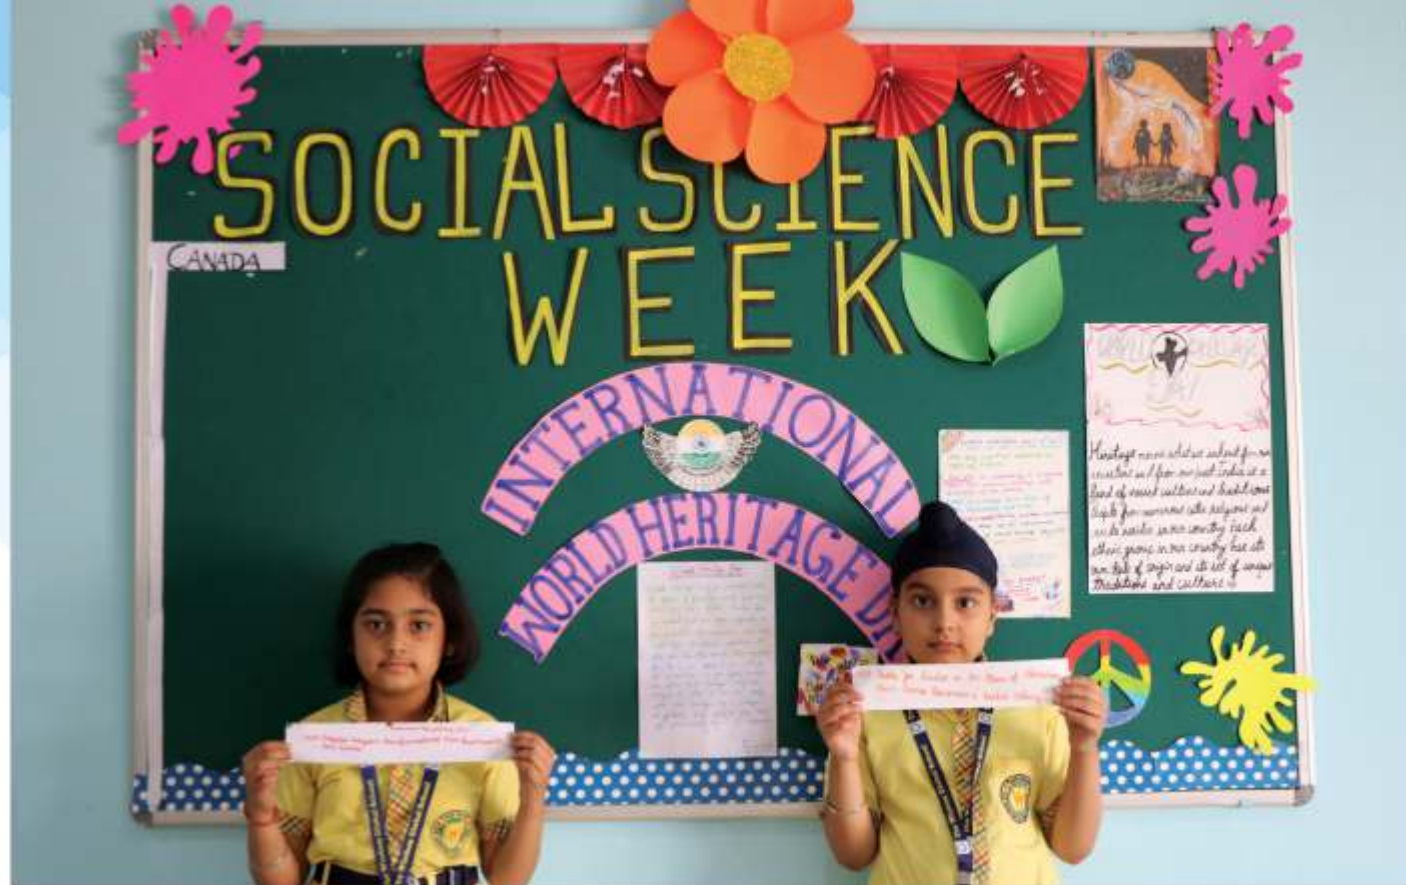

Dedicated Weeks

Social Studies Week

Education is not only about learning facts but the training of minds to think. When we are having a good time, learning becomes easy and not a strenuous task. To make learning a joyous experience, The Wisdom Global School, organized Social Studies Week in the month of April for students of classes III to X. The classroom became a hive of active learning with students participating in variegated activities. The students of class III-V made Slogans, a timeline activity and displayed all the information on green boards. Classes VI-VIII learned about the various features of seven countries around the world including topics like cuisine, tradition, and lifestyle. Classes IX and X designed pamphlets and wrote a report on social movements and designed a poster on untouchability. They also designed pamphlets on soil conservation and performed a role play on how to conserve soil. The Social Science Week was an informative and educative week that helped the students to enjoy their Social Science sessions with intent and vigor and took them one step out and ahead of the books.

Science Week

Science is curiosity in thoughtful action about the world and how it behaves. It encompasses wide range of activities which include listening, observing, analysing and recording. To inculcate the scientific temperament in our students, The Wisdom Global School conducted **SCIENCE WEEK** which included vast array activities for our students like Know your scientist, Seed ball activity, Science Fun Day, Class Quiz, AFS national science quiz etc. All the students of different age groups were able to develop their research-based mindset, built their cognitive abilities, enhanced their observational and practical skills.

Academics at TWGS

Dedicated Weeks

Math Week

The school had an extraordinary aspect of the celebration of weeks which was observed with great zeal and excitement. The week's celebration brought a drastic change in the students as they portray the qualities of leadership, teamwork, cooperation, confidence, hard work and analytical prospective study. Mathematics week was organised in school from the 1st August to 6th August whereby a myriad of activities had been carried out by the students which culminated with the Math fest celebrations on 6th August. The aim was not only to create awareness amongst the students about their daily life experiences related to mathematics but also to sensitize them to develop mathematical curiosity and use inductive and deductive reasoning when solving problems. It was a week-long series offering insight into the impact of Mathematics in our lives. A plethora of activities culminated in the form of case studies. The main goal of the Math fest was the Mathematization of students' thought processes.

Literary Week

The Wisdom Global School celebrated '**Literary Week**' with an array of activities throughout the week from the 5th to the 10th of December 2022. This week was observed to ignite and fuel new interest in reading, creative writing, etc. A variety of activities were held that gave a creative platform to the students to explore their latent talent and gave wings to their imagination. 'Treasure Hunt' is the psycho-motor activity that involves all the sensory organs of a child and better thinking processes. This activity gave the students of class I and II experiential learning. An expansive vocabulary is an asset and 'Spell Bee' gave students of class III to V, a chance to learn new words through various clues. 'Letters to Favourite Author' gave the students of class VI to VIII an opportunity to connect with their favourite authors by writing them letters and expressing their feelings. Poetry is considered as the crown of literature. Students of class IX to XII explored this facet of English literature through the activities 'Poetry Magic' and 'Ornamental Limerick' respectively. 'Poetry Magic' made use of visual clues to hone the creative expression of students while Limerick sought to educate learners about literary devices used in poetry. Apart from above activities many other activities like Storytelling, Poster making, Movie-time, Board decoration etc. were also conducted. Many workshops like Drama workshop, Phonetics Workshop, etc were organized for the students. TWGS believe in 'Holistic Development' of a child. The activities were planned to hone decision-making, creativity, abstract thinking, etc and the week turned out to be an extremely engaging experience mixing learning with fun for the children.

Infrastructure

Mathematics Lab

A Mathematics Laboratory is a place where mathematical activities are carried out under the guidance of facilitator. Mathematics Lab is a joint effort between students and teachers to create a common place where students can clarify, correct, and challenge their understanding of Mathematics. Mathematics enables the students to apply the learnings of mathematical facts and principles in the actual life. It provides scope for greater involvement of both the mind and the hands which facilitate cognition. It is multi-sensory approach to learning. Use of mathematics laboratory provide activities that arouse the curiosity of the students and maintain their interest in learning.

Some of the activities that were conducted in the mathematics lab were

1. Students prepare different games in the lab based on different mathematical concepts.
2. Students learned the concept of mensuration through different activities with the help of models of different shapes and size.

Social Studies Lab

The Social Studies lab of TWGS acts as an activity room for pupil-teachers as it combines academic experience with worldly knowledge, making learning effective, lively and fun. This lab provides students with various options to learn better and to increase their cognitive and cooperative learning. They learn to investigate how Social Science is embedded in our day to day affairs. Young Wisdomites enrich their understanding and learn to analyze the way of pieces of evidence and data.

The Social Studies Lab is well furnished with a seating capacity of 30-35 students focussing on spatial skills. It also includes:

- Globes
- Topographical Maps
- Working and nonworking 3D Models
- Historical political maps
- History projects and models on Harappan civilization-clothes, artefacts, jewels etc.
- Geographical and political charts 2D and 3D models.
- Physical, Political and cultural maps of India and the World
- Models made by students during exhibitions.

Integrated Science Lab

The Wisdom Global School has an integrated science lab for classes III to VIII. In this lab, students do practicals and activities related to Physics, Chemistry and Biology. Our lab makes students do investigations, engage in scientific reasoning, manipulate the equipment, and analyze their findings. TWGS combines classroom teaching with laboratory experiments so that students can understand the concepts thoroughly and enhance their knowledge.

Computer Lab

The school has state-of-the-art computer labs to cater to students at Junior, Middle and Senior School level so that every student can keep abreast with IT-enhanced learning programmes. They gain proficiency and dexterity in current technology with optimized supportive infrastructure with the latest hardware and software and a team of extremely competent staff. The school is committed to a progressive and evolving approach to ensure that our students have the advantage of being familiar with up-to-date technology advances in IT-based educational initiatives. There is a wide platform for our children to not only explore IT frontiers as a subject but to ingeniously explore and make forays into IT-supported art mediums in the field of designing, photography and movie making.

Language Lab

The language lab is the advanced and technical pedagogy of Second language teaching and learning. It includes the audio-video aids to heighten the experiential learning of the second language learner, therefore all the four essentials (reading, writing, listening and speaking) of language acquisition are centralized in a language lab. Thus the second language learner is enabled to acquire the language faster than any other means, for it ignites the critical thinking, and problem solving skills through the the 'Phonetics Software' and it offers every individual child a good practice of Listening, Speaking, Reading and Writing altogether at a time. As the Language lab includes auditory, visionary and perceptive means to scoot the language acquisition of a child therefore it bears its efficacy and accuracy for its purpose with certainty. Our 40 seated Language Lab offers the advanced computer lab equipped with high tech accessory gadgets, latest interactive software, Interactive worksheets, simulative videos, LAN facilities for telephonic practice and much more. TWGS believes in exposing the latent potential of every individual child, so that the outer world may not pose a sudden wondor for him. Our language lab in the same way prepare our children for the advanced admission procedures like TOEFL, IELTS and other English language tests for seeking admissions in the foreign University.

Physics Lab

Every Scientific law need Experimental Verification. Science is the result of the careful data collection and systematic analysis of laboratory evidence. More than a mere place in the back of the classroom, the Physics Laboratory is the place where Science students perform Physics Experiments as observed in nature. TWGS is equipped with a spacious and properly ventilated Physics Laboratory. It ensures the students to practice the activities of scientists-asking questions, performing procedures, collecting data, analysing data, answering questions and thinking of new questions to explore. The lab is well equipped to satisfy curious minds of students in making them a perfect scientist. Students are directed and encouraged to do all experiment themselves under the supervision of skilled expert faculty and lab assistants. Telescope, Pendulums, Spring weighing machines, Vernier Callipers, Screw gauge, Electrical Apparatus, Meter Bridges, Battery eliminators, Potentiometer, Optical Instruments, Hooke's apparatus, Semiconductors etc. can be seen in continuous use by the students in the Physics Lab. The pin-boards on each wall are decorated with suitable charts & illustrations. Different models, made by the students, are exhibited all around the lab. The General Guidelines for Students working in Physics Lab, safety rules & policies are designed to protect students and others.

Chemistry Lab

Science is not just different than other subjects; the entire process of doing science is different. The means by which knowledge is acquired in science is unlike history or mathematics or poetry. The answers to scientific questions are not found in a textbook or through pondering high and lofty thoughts. Especially chemistry requires a well equipped and systematically arranged laboratory. Without a proper Chemistry lab, it is not possible to carry out the chemistry practical and teaching process effectively in a school. The Wisdom Global School houses a lavish chemistry lab with various scientific instruments and chemicals. Here the students learn to handle various apparatus and chemicals independently in a controlled, hygienic and safe manner under the supervision of teachers and Lab instructors.

Biology Lab

The Wisdom Global School, has always paid premium to innovation and technology. Our school boasts of a highly equipped and well-stocked biology laboratory. The idea is to enable hands on learning by the students, "Learning by doing" being the motto of our Bio lab. The laboratory provides the students with all sorts of facilities, ranging from specimens to innovative models. We have permanent anatomical slides of plants & animals simple and compound microscopes for the students to focus and study slides. Also the laboratory has a variety of apparatus for physiological and ecological experiments. The laboratory is well supplied with chemicals, and other apparatus for each students to carry out their experiments. Here, the students are encouraged to learn through experiments and understand various concepts beyond their books away from the conventional classroom teaching.

CALENDER

Activity Room

"CHILDREN HAVE THEIR OWN SEPARATE WORLD WHERE THEY WANT TO PLAY FREELY."

We provide a specified place to the children where they can play as well as learn. Activity room is the place where children learn something new by being free. Through the use of this room, we get to know more about the interest of children. There are different corners like Math Corner, Creative Corner, Stress Burster, Discovery Corner, Building Blocks, etc. Children sit at their favourite corners and perform activities to learn something new.

Fine Arts Room

Painting is one of the most primitive art forms, along with the first step of early man on the earth the discovered murals, the potteries, the engravings and the stamps all these vestiges are overwhelmed to narrate the story of expression and experience. Thus even today the process of expression through colors, sketches and many more ways is on and on. Colors spew out and rapture in the art room of TWGS and here the same early man's artistic spree of children is ignited and tiny hands are molded in to the excelled creator, painter and sketch artist under the supervision of certified art faculty. Not only children are inspired by posing the examples of live master pieces prepared by the art faculty but also children are made feel the minutest intricacies of painting and sketching. The proof of wisdomites' expertise in painting is strewn everywhere on the walls of our offices, classrooms and art gallery of art room. We also encourage students for inter-school and inter-house competitions and make them victorious not only in their own school but also in the arena of outer world.

Craft Room

Craft activities in TWGS give students a sense of achievement and allow them to take pride in their work which builds confidence. Creating craft is a great and safe way to discover that it's okay to make mistakes and getting things 'wrong' can lead you to a whole new idea.

Students are engaged in many craft activities like Flower Making with the help of paper, Pen Stands, Diwali Décor, Photo Frames and Wall Hangings. Craft allows kids to develop their creativity which is important throughout their lives. It also fosters mental growth in students by providing opportunities for trying out new ideas, new ways of thinking and problem-solving.

Textile Lab

Design concept and fibre arts are just the beginning of what our students learn. The textile design curriculum provides adequate opportunities for students to create and innovate with different materials. At TWGS the students are getting advantage of learning more about Textile. In the Textile department of TWGS, we have variety of things to teach like Handloom, Weaving, Knitting, Flat Knitting, Jersey Knitting, Screen Printing and Block Printing. All these techniques are interrelated to each other as textile is all about clothing, home decor and fashion. TWGS gives advantage to students to learn about these techniques so they can develop their skills with great enthusiasm. The textile lab at TWGS has various machines like handloom machine, Flat knitting machine and jersey knitting machine where students work under the guidance of their facilitator. It introduces the basic need of clothing by giving knowledge about fibres which also helps in academic and sensory growth for toddlers. They also acquire knowledge of warp and a weft technique as well as interlocking of threads as weaving is the primary method of textile. Screen Printing and Block Printing are also done by the students of TWGS where they learn about various motifs and designs engraved on wood or on screens.

JERSEY KNITTING

WEAVING

BLOCK PRINTING

SCREEN PRINTING

FLAT KNITTING

FOR MORE INFORMATION

Music Room

A musical instrument is a device created to make musical sounds. Learning an instrument is a great way to improve key cognitive functions such as our memory. TWGS is well-equipped with musical instruments for students including Percussion instruments: Tabla, Drum, and Congo; String instruments: Guitar, Sitar, Tanpura and Violin, Keyboard instruments: Piano, Casio, and Harmonium, Brass/wind instruments: Flute and Mouthorgan. The instrument Tabla is one of the most basic as well as versatile percussion instrument. It is a healing art and therefore it can give students of any age a better sense of well-being. Playing Tabla increases body awareness and kinesthetic development. It improves students' ability to concentrate and complement their studies and physical fitness.

Dance room

Dance has traditionally been an important part of religion and culture in India. According to Indian legend, the gods invented dance. Dancing is one of the most revered Hindu arts because it incorporates melody, drama, form and line. Gestures, body positions and head movements are emphasized in Indian dance. The use of the hands, fingers and eyes are of primary importance. There are almost a thousand specific hand movements and signs ("mudras"). Often bells are worn around the ankles. Western dance, encompasses many dance forms or styles, which are typically danced to country-western music, and which are stylistically associated with western traditions. Our dance studios are fully dedicated and furnished for Western dances as well. They are spacious enough to allow our students to prepare, choreograph and rehearse for stage performances and inter and intra school competitions.

Library

The library helps students understand their own culture and exposes them to other cultures, gives them the most recent information, and exposes students to fresh ideas, literature, and ideas, making their awareness of the history and geography of both the near and far regions. Library is an essential tool for establishing desirable study habits among students. Libraries also play an essential role in improving the effectiveness of teachers and their teaching performance in the classroom. Our school library facilitates diverse life skills, thereby enhancing personal development in young children. It promotes curiosity, innovation, and critical thinking. It endorses desirable study habits in students. A library is truly integral to the teaching and learning too.

Auditorium

An Auditorium is the place where all the students and teachers gather or assemble for different activities. It is an essential part of TWGS as it has multiple uses to organize celebrations and recreational activities which are performed by the students on the stage of Auditorium. Stage performance helps to build confidence and bring joy to students, parents and teachers. Stage performances encourage students for drama, play and voice projection. The Wisdom Global School is supported by a fully air conditioned School Auditorium which is equipped with the most modern and audio visual facilities and with a massive seating capacity of around 800 people. The auditorium hosts numerous events including Inter School Competitions which gives exposure to the students in showcasing their talents and groom their inborn virtues. It also contributes to the students' learning as this encourages children to explore their emotions, expand their imagination and helps them develop their own, unique voice. Each discipline of music, dance and drama engage a child's brain, body and emotions in different ways to encourage their confidence and find joy in self-expression.

Kitchen and Dining Area

Dining is a place to relax, as well as maintain a public presence. In addition, providing healthy and nutritious food, and exposing children to a variety of cuisine, helps in inculcating healthy eating habits in children. Mess is a great place where they gather and connect with peers and their teachers. At TWGS we take efforts to make the dining experience very preeminent each day, in every meal. Students are offered the finest nutritious food in very tranquil surroundings. The quality, assortment, and comfort of dining services are unsurpassed. Our school mess offers vegetarian food and caters to diverse tastes. Students are offered a wide variety of menus to keep the meal time exciting. Delightful food is prepared according to strict standards of hygiene. The amazing mess and canteen ensure that the students never go famished.

Seminar Hall

A wide spectrum of activities at The Wisdom Global School necessitates the existence of a seminar hall with the entire modern infrastructure in it. We have converted this necessity into reality. The architecturally magnificent structure of the centrally air-conditioned hall is equipped with high-end audio-visual facility and other technical infrastructure. The Seminar Hall has seating capacity of 80 people. The performance arena is used for seminars, exhibitions, and a number of cultural activities like public speaking, debates, declamations, poem recitations, dramatics, English Literary week(Enactment, Movie, Parent Orientation programs, Maths week ,workshop NTSC for class 10th (webinar), Debate competition etc. Apart from co-curricular activities, the seminar hall is used for Yog, meditation. The multi dimensional talent of our children reflects in full glory within the acoustically marvelous seminar hall of The Wisdom Global School.

Infirmary

Our school pays special attention to student's health and sanitation. There is an infirmary with a dedicated nurse and beds. Students who suddenly may feel sick or accidentally injure them self in the school campus refuge here and are given first aid. Our school has a qualified full-time nurse. The school infirmary is equipped with the basic materials and facilities to address the health. As on site trained & qualified nurse is available to manage & assess any health issue that may arise during school hours. We give medicine as per the age of the students. The school also has a tie-up with and empanelled hospital to meet any emergency or trauma care, if required.

Pottery Room

Students in TWGS experience the beauty of pottery and learn to create wonders with clay. They learn and explore different ceramic techniques on high-quality electric wheels to create their pottery. They also learn hand-building methods such as coiling and slab work, mould making, casting and throwing on electric wheels. In pottery classes, we also give them an introduction to glazing and surface design through carving and painting.

Holistic Development

Personality Development

Primary

The age group between 2 to 6 years is crucial for the development, not only in terms of Scholastic but non-Scholastic, interpersonal and intrapersonal development, we at THE WISDOM GLOBAL SCHOOL are dedicated to providing children a relatively stimulating and nurturing place of excellence where children experience a wide range of activities such as:-

- Show and tell activity- In TWGS, we give a platform to each and every child to showcase their hidden talent through the show and Tell activity.
- Storytelling activity-In all the Pre-Primary section we have storytelling section in which students listen the stories and also learn to narrate them in a sequence.
- Role play- Every month we have thematic activities where every child gets a chance to show their creativity and it boosts their confidence.
- One-to-one interaction with the child- Interacting and playing with both peers and adults presents an immense amount of learning opportunities for young children.
- Meaningful art activities- In TWGS, we perform different types of activities to strengthen the fine motor skills of the students like- clay moulding, stamping, colouring, sand tracing etc.
- Puzzle- Puzzles are an excellent tool for developing brainstorming and fine motor skills, we conduct such activities to make students actively participate which develops their mental skills.

Areas of developmental focus: -

- Social Development
- Cognitive Development
- Emotional Development
- Physical Development: Large/Gross Motor Skills; Small/Fine Motor Skills
- Communication and Language Development

Creativity Development

Holistic Development

Personality Development

Middle

Personality development signifies the process of being at one's best behavior and best state of being.

Education is central to personality development. Aside from providing a person with the knowledge and skills they need to succeed in life, it can also teach them how to think critically and make informed decisions. Additionally, education can help students develop positive relationships with others.

TWGS students communicate effectively and participate in class discussions, ask questions and give presentations. Personality development can help students to develop communication skills. The kind of learning environment TWGS offers a conducive environment to build a positive personality in every child.

Senior

Personality is the overall identity of an individual that acclimatizes as many traits as are required to deal the day to day affairs without friction. The traits of the child, that he performs every day in school or at home reflects itself in the behavior of the child that ultimately defines his personality. Thus the education can never fulfill its objectives until or unless it imparts the positive changes in the personality of the child. At TWGS we plan every activity with a purpose inbuilt in it so that a child can get its full exposure to engrave its persona. Thus personality development is not a separate discipline but it has its essence in our day to day living. For engraving the persona of an individual per the norms of this highly competitive World, TWGS design many cultural, academic and sports activities like public speaking, debate, Group discussion, drama, music and much more.

Holistic Development

Activities

Pre-Primary

Students learn more effectively by group activities. ACTIVITY time which hinges on the idea of small group activities and peer discussion and prepares the children for the upcoming/ongoing topic in every lesson plan and transform children into more dynamic and effective learners. During the activity time the facilitator guides students as they apply concepts, play games, watch videos, listen stories and then interact with their fellow mates and engage effectively in the subject matter.

RAINBOW DAY CELEBRATION : To celebrate the joy of colours and to introduce kids into mesmerizing realm of colours we have different colour day every month.

MERRY TIME AND APPRECIATION : Every end of the month we celebrate MERRY TIME AND APPRECIATION in Pre- Primary classes where we celebrate the birthdays and give certificates of Appreciation during the morning assembly

FINE MOTOR ACTIVITIES : Fine motor helps toddlers and preschoolers develop the small muscles in their fingers and hands, as they pinch, squeeze and prod the clay, adding detail to the shape or object.

GROSS MOTOR ACTIVITIES : Gross motor activities develop a child's physical strength. In our pre primary we have introduced different gross motor activities like, kick a ball, jump on the circle, walk on a line etc.

SENSORY ACTIVITY : Sensory activity activates and stimulates a child's senses. It focuses on stimulating touch, sight and hearing. Sensory activities also support language development, cognitive growth, fine and gross motor skills, and fosters social interaction and peer engagement. Some sensory activities we conduct in Pre-Primary are texture of different objects, taste test of food, different musical sound etc.

SCIENCE ACTIVITY : In science activities students learn about nature, weather and the world around us. Students learn about the human body, animal, vehicles in interactive way. Students perform some activities like air pollution with blowing the smoke, nitrogen filling air in a balloon, body parts with puppet, etc.

ROLE PLAY : Role play is an important part of child development, as it builds confidence, creativity communication and physical development. In this session, students role play as per their themes like any story character, food, community helpers etc.

ACHIEVEMENTS

· SOF · USO · International Painting competition · Cartoon making competition

All India School Festival organized by United Schools Organization of India, America Field Service Competition and Muniversity in collaboration with Harvard University and MUN conference.

Presenting some moments of glory from TWGS family!

Tanmay Sharma, Pragya Jain and Kriti Sharma have displayed exemplary performance for JEE Mains exam 2022.

60th General Conference and All India School Festival organized by USO India at Kavaraipeetai, Chennai from 27th to 30th September 2022. Over 28 schools from all over India participated in the event and Bhavya Paliwal of class 8th won a 3rd prize in Solo Dance competition and Ms Jharna Banerjee won a 1st prize in Teachers Activity.

MUN conference which was conducted by DSB, RISHIKESH. Bhargavi Choudhary was awarded best delegate in her committee which was UNHRC. Mihika Pundir was awarded for her efforts with a Special Mention and the team snatched the award of Best Delegation.

Moulik Jain from the Wisdom Global School Haridwar won high commendation at Indore Summit organized by AFS & Muniversity in collaboration with Harvard University in American Field Service competition held at Indore Madhya Pradesh.

Aman Swaroop Chawla of grade 8th and Hiral Chauhan of grade 6th won Special Mention and Honorable Mention respectively at MUN held at RPS International school Gurugram.

Anubhav of grade 11, bagged 9th outstanding award in All India Painting Competition organized by Japan Embassy, Varuni Goel bagged National Championship under Junior category of Cognito Abacus 2022.

Jiyana Jain and Ayaan Keshwani scored 2nd and 3rd rank out of 2866 registrations in National Level 'ANYBODY CAN CARTOON CHAMPIONSHIP'.

5 students secured one Gold, two Silver and two Bronze Medals in 3rd Kashi Challenge Cup in the category of Taekwondo.

HONOUR

The Wisdom Global School is proud to have achieved an extremely high reputation and have earned equally high goodwill to be treated as one of the most premium schools of Uttarakhand. We are delighted to present here some of the national and international organizations who have been kind enough to appreciate our efforts and present us with their prestigious awards and recognitions. We can never thank our teachers, management, parents, and students enough who have been part of our short journey till now for facilitating us in achieving such milestones.

Holistic Development

Activities

Middle & Senior

Learning, thought, creativity, and intelligence does not just come from the brain alone, but from the entire body. Movement combinations increase memory, order, and sequencing skills. Creating dances also increases self-esteem which is so very important to learning. TWGS witnessed the need for children to move throughout the day. Classroom activities play a vital role in a student's life. It offers to teach through various tasks assigned in the classrooms. Also, Twgs provide real-world scenarios to help students learn. Every activity aims at providing students with opportunities to deepen their learning. It improves their high-order thinking skills as well.

I- MUN

MUN stands for MODEL UNITED NATIONS. TWGS initiated MUN Club in the school from September 2021. The club aims at enhancing communication, social and leadership skills of the students by modelling United Nations.

There are many achievement stories of our MUN Club.

- SPECTRAGENIE organized a conference Of United Nation Women it was attended by our Director Ma'am Ms. Sonal Jain and Ms. Riya Sharma. Ms. Riya Sharma bagged 'The Best Delegate Award' defeating the 40 schools from pan India.

Our students also participated in the--

- DPS INTERNATIONAL EDGE MUN
- DSB MUN at RISHIKESH
- INDORE WORLD SUMMIT organised by American Field Service in association with Harvard University and bagged High Commendation Award (II Position)
- INTER HOUSE MUN of WESTERN IMPERIAL UNIVERSITY
- MUN-DPS DAULATPUR and many more.

II - AFS

AFS or originally called the AMERICAN FIELD SERVICE is an international youth exchange organization that focuses on intercultural exchange along with the other academic targets across the globe. THE COMPETITIONS in which TWGS participated organized by AFS are as following:

- INTER FAITH HARMONY – Bulletin board competition
- AFS North India meet
- ALL INDIA SCIENCE COMPETITION organized by TWGS
- STUDENTS and TEACHERS TRAINING by AFS headed by SAHITYA MANJRI
- DEBATE COMPETITION at PATHWAYS SCHOOL GURGAON,
- CONTINENT QUIZ BY MAMS
- SIR CYRIL TAYLOR PROGRAM FOR EDUCATORS
- FOLKLORE HISTORY OF INDIA
- EFFECT PLUS TRAINING
- PATHWAYS TRAINING FOR TEACHERS
- ART FOR CHANGE- PUPPET MAKING, WARLI ART, BIHU DANCE
- SEMI CLASSICAL DANCE COMPETITION BY HIGH RANGE SCHOOL, MATHUPUR, BANGLORE

III - USO

USO (UNITED SCHOOLS ORGANIZATION) has engraved the persona of our children at the international level. Team TWGS participated in 60th General Conference and All India Schools Festival organized by USO of India at Kavaraipeetai, Chennai, Tamil Nadu from 27 September to 30 September 2022. This year's global theme was Sustainable Development Goal number-5 – Gender Equality.

Holistic Development

Activities

Middle & Senior

IV - MEXICO

As these off-line activities are very essential to have the all-round development of a child, but COVID period changed the ways of learning and participation. Even in that tough time of COVID period TWGS did not leave any stone unturned in catering the international exposure to its students. Therefore we collaborated with PARTENON INSTITUTON , COZUMEL, MEXICO.

V - AWARENESS CAMP

"Following rules of traffic is essential for all."

The students of grade 9 to 12 attended a workshop which was conducted by the Police Dept. of Haridwar. The guests for the day were Mr. Sita Pandey from Women Helpline, Ms. Chandni Bisht from Anti Narcotic Task Force, Mr. Virendra Kothiyal from the Anti Human Trafficking Unit, Mr. Pradeep Kumar from Traffic Dept and Mr. Ritesh from the Cyber Dept. The officials shared information on the topics related to their departments and spread awareness amongst the students.

VI - ENSURING EXPOSURE

"Exposure is an important tool to ensure that the upcoming generations are aware of their past, present and future." The students of The Wisdom Global School participated in the Painting competition organized by Embassy of Japan in Art Gallery, New Delhi. The students were supposed to create paintings inspired by the pictures on the walls of the art gallery which were based on the similarities and the friendship of India and Japan.

"A little appreciation can do wonders for the one who needs it."

6 students of grade 11 and 12 were awarded trophies and certificates as a part of a programme called Talent Appreciation Programme which was organized by H.E.C. Haridwar.

VII - FOR COMPETITIVE EXAM

At TWGS, the students of class X attended a webinar on 29th November 2022 which was conducted by GOF Academy. It was an awareness session regarding the NTSE exam in which the details about exam pattern, syllabus, marking scheme, advantages of being an NTSE scholar ,etc was imparted. It was an interactive session. The students were motivated and inspired. They realized it as a great opportunity to showcase their talent . Not only the toppers but the student gaining 60% in previous class is eligible for this NTSE.

ANNUAL DAY

Annual function of school is one of the most awaited events for the students during their school life. Students, teachers and parents wait for this grandeur. It is an important element of every school's calendar.

TWGS always shows exemplary performance whether it is an academic achievement or cultural insights. For the grand success of annual day the preparations starts three months before the success day. To motivate people with the help of beliefs that India has invented and discovered endless discoveries, the annual day was entitled with "Bharat ek soch" for the academic year 2022-23. Students performed their acts on following themes-

- Mythological
- Environmental Awareness
- Traditions and Cultures

On grand day celebrations, felicitations and festivities takes place where students not only present their outstanding performances but also earn awards for their academic and co-curricular achievements. Annual day at TWGS represents various cultural cum motivational events by the students, insightful speeches and lectures by the people with valuable experience, food fest, exhibition by the school students where they showcase their talent for which they work hard throughout the year.

SPORTS

TWGS believes in maintaining the sportive spree of a child in the rigorous process of its academic journey and therefore ensures psycho motor development of every individual child as it becomes mandatory for a healthy mind to have a healthy body, and sports activities offer both the mental and the physical fitness hand in hand.

In order to serve the motive mentioned above, we offer almost all the popular outdoor and indoor sports, suitable for all the age groups. TWGS has largest infrastructure of sports activities in the region with the same being coached under well experienced trainers.

Sports is an essential source of entertainment since the primitive age, it develops many essential traits like teamwork, coordination of mind & body, cooperation and caring of fellow members, handling the emotions and making the strategy for victory. TWGS offers verity of outdoor games like Volleyball, Basketball, Cricket, Swimming, Kho-Kho, Taekwondo, Hockey, Football, Hand Ball, Adventure Sports, Kabaddi, Shotput, Skating, Javelin Throw and badminton etc.

Besides these outdoor and adventure sports TWGS also offers assortment of indoor games (carrom, Ludo, table tennis, chess and block building games) to inculcate the emotional balance, strategic planning for the next move and developing the better coordination of eyes and hands.

Bharat is considered as a 'YOGIC GURU' that has spread the lessons of meditation and mental peace across the globe. Therefore considering the mandate of present scenario loaded with mental stress and other stress generated diseases, TWGS offers the authentic YOG training under the supervision of certified 'YOG' trainers.

Excursions

"A journey of a thousand miles begins with the first step."

Excursions help immensely in **improving students' life skills and problem-solving abilities**, as they get better at decision-making and also develop their confidence and communication skills. As a part of the Holistic development of a child **TWGS** organizes such excursions to improve teacher-child and peer-to-peer bonding. The excursions are planned to ensure learning and fun experiences for the kids. They learn about religion, nation, real-life work, etc, and enjoy adventure sports, sightseeing, etc.

The excursions are planned for all ages as per suitability, at least two local level and one outstation excursions are organized for every age group per academic year.

For the tiny tots are taken to visit local gardens and temples for picnics or eateries like Burger King and Pizza hut where, as learning experiences, they are also explained the process of cooking and managing a restaurant.

A little bigger age groups of classes 1-4 are made to visit places like Beanstalk at Dehradun where they experience and learn about different community helpers. For local visits, they are taken to places like Railway stations and Fire stations.

Middle School students visit places like National Parks, Patanjali Herbal Part, Shanti Kunj, day trips to Mussoorie, etc

The senior students in addition to the visits to local factories like Cello, HUL, Hero, and Jaggery making they are taken for longer trips to places like Kanatal for adventure sports, visit Surkanda Devi Temple, Jim Corbett National Park, Amritsar, etc.

Field trips and expeditions are an integral part of our school curriculum.

OUR FACULTY

Safety & Security

Safety and Security of our students is our utmost priority. We very well understand the when the parents send their kids to the school, they entrust us in providing them with a safe and secure learning environment. We at TWGS are committed and respect such expectations. We have taken various precautionary measures to avoid any accidents or mishap while the student is at TWGS.

CCTV in TWGS campus

Complete campus (indoor and outdoor) of The Wisdom Global School is covered with high end digital CCTV surveillance system, which is regularly monitored. sensitive areas are identified and given extra protections.

Fire Alarm

The complete building is installed with fire alarm system which can be activated at any event. The alerts the emergency response team to take immediate action to mitigate any risk.

Fire Extinguisher in TWGS

A well planned state of the art fire fighting system is installed at TWGS to give complete protection and immediate response in case of any mishap. Regular training of our security guards along with students are carried out on h ow to handle any kind of emergency situations.

Security Guards

In addition to all the high tech and artificially intelligent systems. A team of highly trained security personnel are also deployed in the complete campus to keep and eye on the activities on campus and avoid any unauthorized ingress and egress.

School Transport

The School has its own fleet of Air-Conditioned school buses, Mini Buses, Vans being driven by specially trained and experienced drivers and equipped with state-of-the-art GPS tracking and real time CCTV system.

- All buses have a conductor appointed who travels by bus. All Pre-primary students are accompanied and attended by at least one member of the Staff and a governess travelling on the bus.
- No more than the permitted and specific occupants are allowed in the particular vehicle. All the school buses cater for the safety features for the student on-board.
- The buses run on a network of routes covering all the major areas of Haridwar, Jwalapur, Kankhal, Shivalik Nagar and Sidcul areas.

SPEED REGULATORS IN BUS

All the transport vehicles are equipped with speed governors, which limits the speed of the vehicle. If the driver tries to go beyond the specified limit, the governor will not allow and the system will send an alert to the administrator.

SCHOOL BUS TRACKING APP

All the transport vehicles are fitted with Geo tracking system. The administrator can at any time check the location of any vehicle. If any vehicle goes out of the authorized Geo Fenced area an alert is immediately sent to the administrator for action.

CCTV & FRONT CAMERA IN BUS

All the transport vehicles are equipped with real time CCTV system which monitors and records the activities inside the busses and also captures the front of the bus.

FIRE EXTINGUISHER AND FIRST AID KIT IN BUS

All the transport vehicles are fitted with fire extinguishers and well equipped first aid kit for acting in the critical first few minutes before the emergency response team reaches the site of any mishap.

REGISTRATION & ADMISSION

Age for Pre Primary Wing as on 1st April 2023

Play Group : 2 Years and above

Nursery : 3 years and above

Kindergarten : 4 years and above

PRE-ADMISSION PROCEDURE

1. Collect a Registration Kit

Obtain registration kit which contains the Prospectus and the Admission Form for the session 2023-24 by at the School Admissions Center and provide your initial details. This process of registration does not guarantee admission.

2. Submit the Application Form

Parents should fill the application form duly complete in all respect and submit with following supporting documents and pay registration fee of Rs. 2,000 /-.
